

CRYSTAL RIVER RECOVERY PLAN
Topics/Resources/Questions
Public Informational Meeting
October 8, 6:30
Dayton Town Hall

River Restoration

Resource: Al Niebur, DNR Fisheries Biologist & Scott Koehnke, DNR Senior Water Management Specialist

- *What, if any, type of restoration will occur?*
- *If needed, when will restoration occur?*
- *Who carries out the restoration?*
- *Is there a role for the landowner?*
- *What is the current status of the river, the fishery and wildlife?*
- *What will the river look like 5, 10 15 years from now?*

Riparian Restoration

Resources: Bob Welch, Waupaca Field Station & Scott Koehnke, DNR Senior Water Management Specialist

- *What is the current status of the land?*
- *What can a landowner do to assist in the restoration process?*
- *How will or should invasives be addressed?*
- *Will recommendations be made on what to plant?*
- *What are the permit requirements?*
- *What are your recommendations for the riparian restoration?*
- *What will the land look like 5, 10 15 years from now?*

Land Use:

Resource: Ryan Brown, Waupaca County Planning & Zoning Director & Scott Koehnke, DNR Senior Water Management Specialist

- *What are the setbacks with NR 115 being adopted in the state budget?*
- *What kind of plantings can the landowner plant?*
- *Will the landowner be allowed to cut vegetation?*
- *Will the landowner be allowed to put in trails/paths and smooth the former bank?*
- *What activities will be allowed?*
- *What are the permit requirements?*
